Subject: Info on NCA

Hi Dave – we're in the process of setting up a few briefings on NCA4. It would be helpful to have some stats to provide on the process. In particular, it would be good to have a sense of the number of comments received during the public review process and the number of citations in the full document. Also, is there something that would help us respond to questions about authorship? In particular, we get questions about potential authors being shut out of the process. Anything that you can provide in that regard would be helpful.

Thanks,

Andy
